

**BOROUGH OF BALLY MUNICIPAL AUTHORITY**

**RESOLUTION 2022-1**

**A RESOLUTION OF THE BALLY BOROUGH MUNICIPAL AUTHORITY, BERKS COUNTY, PENNSYLVANIA, ESTABLISHING FEES OR CHARGES FOR MUNICIPAL WATER SERVICE UPON THE OWNERS OF IMPROVED PREMISES WITHIN THE BOROUGH OF BALLY AND DEFINED WATER SERVICE AREA OF WASHINGTON TOWNSHIP AT WHICH A WATER METER OR METERS HAVE BEEN INSTALLED.**

BE IT RESOLVED, by the Bally Borough Municipal Authority, Berks County, Pennsylvania, does hereby establish the fees and charges for water service within the Borough of Bally and water service area of Washington Township as follows:

**SECTION I WATER CHARGES**

The water fees or charges for water supplied to consumers within the Borough of Bally and water service area of Washington Township to premises at which a water meter or meters have been installed, shall be and the same are hereby imposed and established for each quarterly period, or portion thereof, after the effective date of this Resolution, specifically November 1, 2022, for water usage as follows:

- A. For each 5/8" to 3/4" water meter servicing a residential unit, for the first 5,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$62.00  
  
For the next 95,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons
  
- B. For each 5/8" to 3/4" water meter servicing a non-residential unit, for the first 15,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$98.00  
  
For the next 85,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons
  
- C. For each 1" water meter servicing a non-residential unit, for the first 15,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$151.00  
  
For the next 85,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons
  
- D. For each 1 1/2" water meter servicing a non-residential unit, for the first 15,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$163.00

For the next 85,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons

- E. For each 2" water meter servicing a non-residential unit, for the first 15,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$174.00

For the next 85,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons

- F. For each 3" water meter servicing a non-residential unit, for the first 15,000 gallons of water, or any part thereof, in each quarterly period will be a charge of ...\$217.00

For the next 85,000 gallons a charge of ..... \$4.75 per each 1,000 gallons  
For usage above 100,000 gallons a charge of ..... \$3.75 per each 1,000 gallons

The minimum charge for water and/or water services supplied through any meter must be paid for each quarterly period, or fraction thereof, during which water is available and is turned on for meters serving any residential or non-residential unit, whether or not any water is actually used.
